Carson Valley Trails Association Plans Annual Hike for Health Fundraiser

The Carson Valley Trails Association (CVTA) is making plans for the 4th annual Hike for Health fundraiser for the Genoa Foothill Trail System project. The Hike for Health will include two events – a silent and live auction on Thursday, April 22, 5 to 8 pm, at the Genoa Town Hall, and a month-long Trails Challenge that kicks off at the April 22 auction event and ends on Sunday, May 23, with a Family Barbecue at Lampe Park in Gardnerville.

The auction event on April 22 will include silent and live auctions, live music performed by Genoa's Foothill Road, refreshments and a no-host bar. The event is free and open to the public. No tickets or reservations are needed.

The Trails Challenge will offer participants the opportunity to engage in healthy, outdoor activities and learn about trails in the Carson Valley area. Participants can sign up to hike, walk, jog, run or ride. Weekly guided hikes, walks and trail adventures are planned for participants, beginning on April 24 and continuing through May 22. Registration is \$25 for adults age 18 and older; free for age 17 and under. Detailed information about the Trails Challenge, including the registration packet and schedule of weekly hikes, walks and trail adventures is available online at www.carsonvalleytrails.org, or by contacting Chic and Sue Moxley, 775-265-0766.

The Carson Valley Trails Association is a nonprofit, volunteer based organization working with partners to provide access to public lands through a recreational trail system for present and future generations to enjoy. More information about CVTA and the Genoa Foothill Trail System project is available online: www.carsonvalleytrails.org.
